

## **AGREE**

Circuses contribute to unnecessary animal suffering, for the sake of human entertainment.

## **AGREE**

Using animals in circuses, especially wild ones, is unsafe for the spectators as they could become victims of animal attacks.

## **AGREE**

Circuses can continue without using animals (especially exotic or endangered ones) by using other acts.

## **DISAGREE**

There is already enough laws preventing animal abuse. If animals are abused in circus those laws should be enough

## **DISAGREE**

Circuses are not kept to the same high standards that most zoos are. Circuses rely on entertaining people while many zoos are focused on conservation and education

## **DISAGREE**

If the animals are not being harmed in any way there is no legal basis to ban them from circuses, this should be decided on a case to case basis

## **AGREE**

All animals (human included) have the right to life, dignity and a pain-free existence.

## **AGREE**

Scientists are able to test vaccines on human volunteers. Unlike animals used for research, humans are able to give consent to be used in testing and are a viable option when the need arises. Besides, drugs that pass animal tests are not necessarily safe.

## **AGREE**

Animal testing is cruel and inhumane. Animals used in experiments are commonly subjected to force feeding, food and water deprivation, the infliction of burns and other wounds to study the healing process

## **DISAGREE**

Animal testing is crucial to ensure that vaccines are safe. Scientists racing to develop a vaccine for coronavirus during the 2020 global pandemic need to test on genetically modified mice to ensure that the vaccine doesn't make the virus worse

## **DISAGREE**

Animal research is extremely tightly regulated by independent authorities

## **DISAGREE**

Animal testing contributes to life-saving cures and treatments. Animal research has contributed to major advances in treating conditions such as breast cancer, brain injury, childhood leukemia, cystic fibrosis, multiple sclerosis, ...etc
